## Understanding Autism Spectrum Disorders

Approximately 1% of the population has an ASD. For parents and professionals, it can be overwhelming to sort through conflicting information. Current research findings and diagnostic criteria across the spectrum will be explained in a clear and practical way. This FREE workshop is geared toward Division of Youth and Family Services staff, but other professionals should also be able to apply the strategies discussed.

Presented by Elizabeth Neumann, BCaBA  
Autism New Jersey's Professional Services Coordinator
